How does this work?

Provides Google-like single search interface engine. Fast in searching school's resources, and can divide resources into categories and can also guide users to the origin of the resources. The search allow users to combine keywords with operators such as AND, OR, and NOT to further produce more relevant results (Boolean search). Users can also use the double quotes symbol for more accurate search. Search history and selected items can be automatically placed in a folder or My Documents without any saving documents action. If you want to cancel the selected item, then click again the selected item.
